CORONAVIRUS (COVID 19) –

At Guy Crabb Plumbing & Heating, maintaining a high level of customer service is our top priority.

We understand that customers will have concerns regarding the COVID-19 virus and the implications the daily changing Government guidelines will have regarding the services we provide.

Rest assured, we are closely monitoring the Government guidelines and are adapting our processes accordingly in order to provide you with best service we possibly can in the circumstances.

We have implemented several initiatives in order to protect customers as much as possible, including the following –

- Engineers will endeavour to observe a 2-metre distance from customers at all times.
- For those who are following stringent social distancing measures, we can arrange ‘No contact’ visits – please specify this when making your appointment.
- We have promoted a heightened awareness of hygiene processes, which are already in place, including regular hand washing and use of hand sanitiser when hand-washing facilities are unavailable. This will be done between all visits.
- All staff have been made aware of strategies to help avoid catching or spreading the virus.

This is an uncertain time for all of us at the moment, but currently it is very much business as usual. If you have any questions or concerns, please do not hesitate to contact us at the office on 01308 420464.
